Importing the calendar

Uncomment the first line below and replace `FILL_FILE_NAME` with the name of your calendar file:
Make sure you data looks good by looking at the data:

```
# glimpse(calendar_data)
```

```
## Note by setting eval=FALSE, R Markdown will not "evaluate" this code chunk and  
## ignore it.  
# View(calendar_data)
```

Q1: Peer Evaluation Google Form

Fill out the peer evaluation Google form to receive credit.

Q2: Analysis

Data visualization 1

```
# Write your code to create data visualization #1 here:
```

Replace this text with your written analysis of data visualization #1 (no more than 150 words).

Data visualization 2

```
# Write your code to create data visualization #2 here:
```

Replace this text with your written analysis of data visualization #2 (no more than 150 words).

Q3: Joint Reflection

Group leader question about how they use their time (no more than 250 words):

Partner question about how they use their time (no more than 250 words):
